Main activities and decisions:

1- The Ministry of Health has decided to place **Quarantine** word on the files of cases that are subject to quarantine and need health care in hospitals, to be monitored by hospital administrators.

2- It is forbidden to take out any case before the end of the quarantine period, provided that any immediate case of violation of the system is reported.

3- The Ministry of Health has taken new mechanism to finish the quarantine after 21 days so that the PCR examination is performed for all clients during the period between (20-18) days from the date of the quarantine, in addition to making sure that all laboratory tests are negative.

4- - Examination of all clients and ensuring that they are free of respiratory symptoms (high fever - cough) and in the event of any respiratory symptoms, the PCR is examined and the stone termination is postponed.

5- - The quarantine is finished the morning of the twenty-second day, the disinfection and sterilization of the stone centers 24 hours after their evacuation, knowing that the center can be reused after 24 hours of disinfection.

6- Issuing a decision to extend the private quarantine to 21 days instead of 14 days.

7- The Health Education Department of the Ministry of Health has printed 30,000 publications,

20,000 awareness posters for the Corona virus and distributed it to each of the Ministry of Health,

UNRWA, military medical services and NGOs.

8- Issuing a decision to legalize primary health care services to be limited to some centers in each governorate, provided some services as general medicine service in the event of an urgent complaint, provide treatment for chronic diseases for a month within the available, vaccination, physical therapy, radiology and laboratory for emergency cases.

9- Stop many primary care services, such as breast scan services, and limit only to diagnostic services, dental services for necessity.

10- A decision was issued to allocate five schools in each governorate to treat cases suffering from respiratory diseases.
